# WILL LAND SALE HARM BALMAIN?

Balmain aldermen have announced their intention of moving for the rescission of Leichhardt Council's decision to sell the unused land in the Balmain East Council housing project.

They consider that the decision to sell the land could be detrimental to Balmain's welfare in that it could lower the standard of housing construction in the area.

By handing the area over to private developers, they say, Council could find it difficult to preserve public view of the waterfront, as well as finding it difficult to control the siting of new buildings and the extent of coverage of the sites.

### Motion

Ald. N. Origlass advised "The Link" that he had submitted a motion that Council should rescind its recent resolution to sell to private developers the remainder of the land pertaining to the Brett Avenue project.

That rescission motion would be debated at next Council meeting (March 19).

"As you point out," he said, "no specific reason for selling the land was given in the report of the four senior officers. But what they did say was that Council had achieved its purpose of setting an example to developers to indicate the potential of this particular area.

"This is in blatant conflict with the facts. Council's housing project was initiated to mark the 100th anniversary of Balmain as a municipality, and to set an example in land use

in regard to the siting of buildings, surrounding open spaces and optimum preservation of harbour amenity."

### Reports

Ald. Origlass said that the 36 units in the existing buildings had been only the first stage in the Council's project, as proved by reference to the many reports these officers had presented between 1961 and 1968.

Further site development plans had been called for, and had been submitted by the architect in March 1967 for the second stage—19 two-bedroom and four three-bedroom units, together with a 10,520 sq. ft. public reserve, public boat-launching ramps, private pool, children's playing area, landscaping and rockeries.

Council's first 36 units had been sold quickly, and the existing demand and inquiries absolutely justified further construction.

### "Dealing"

"Council is authorised by Section 496 of the Local Government Act to undertake housing development," Ald. Origlass added, "but it is not authorised to set up as a dealer, buying and selling land.

"No. 9 Nicholson St., bought for £5,000, is valued at \$14,000. No. 7 Nicholson Street, bought for £3,400, is valued at \$8,000. And these are not market values.

"The Mayor thinks private developers may supply a marina and swimming pool. But will

the Mayor restrict the developers to a 35 per cent site coverage?

"What will be the quality of construction and the selling prices, compared with what Council has demonstrated is possible?

"The loss of rate revenue is only \$4,000, diminishing as the building project advances.

"I consider that the action of the Labor-controlled Council in selling out the housing project to private developers is unworthy of it."

## Women's Prayers

The Balmain-Rozelle service in the "Women's World Day of Prayer" will be held this Friday, 7th March, at 7.30 p.m., at St. Thomas' Church of England, Rozelle.

The service will include well-known hymns, a solo and a short talk, as well as the service of prayers.

All women, of any age or creed, are invited.

This service is held on the first Friday in March throughout the world. For the past 82 years women in all countries have united in a day of prayer—for each other, and for peace in the world.

The same order of service and prayers is used in all countries, and each year is composed by women of a different country. This year's service has been produced by women in North African countries.

## BREATHING SPOTS IN BUSY SUBURB

Balmain's public gardens provide a restful atmosphere in these days of increasing industrialisation. Residents should be—and undoubtedly are—proud of the suburb's two major parks, one in

a residential section, the other in the busy commercial section.

ABOVE: The entrance to Elkington Park, in Glassop Street. The Dawn Fraser Pool is at the bot-

tom right-hand corner of the park (out of sight in the picture).

BELOW: Gladstone Park, where it fronts the main business thoroughfare (Darling Street).

## TERMINAL OPENING

The newly constructed Balmain container terminals will be opened by the Minister for Public Works, Mr. Davis Hughes, on Friday, March 21, at 4 p.m.

The eastern terminal at White Bay will be known as Nos. 5 and 6 Balmain, and will be leased to Seatainer Terminals Ltd., the container terminal operator, on behalf of Overseas Containers Pty. Ltd. and Associated Steamships Pty. Ltd.

The western terminal will be known as No. 4 Balmain, and be used as a common user terminal available to all container ships desiring this facility in the Port of Sydney.

The ceremony will also include the inauguration of the Coastal Container Service by Sir Ian Potter, chairman of Associated Steamships Pty. Ltd., and the occasion will be marked by the maiden voyage of the m.v. "Kanimbla", a cellular container ship built in Australia.

Over 800 guests have been invited to the function by the Maritime Services Board and Associated Steamships Pty. Ltd., these guests being representatives of shipping, industry, commerce and transport organisations, as well as representatives of Government and public bodies.

## Industrial Safety

The next meeting of Balmain District Industrial Safety Group will be held at Unilever (Aust.) Pty. Ltd., Reynolds Street, on March 11.

Following luncheon, Mr. W. Kemsley, of the Department of Labour and Industry, will outline the various training courses made available by the Department.

## KNITTING

Pay as you knit! Goldsmith's wool bank is easy and convenient for the keen knitters.\*

## Column NINE

Just what is going on at Mort Bay, at the new container terminal site?

On behalf of the people of Balmain, who have suffered such atrocious attacks against their living amenity—in recent years, this paper demands an answer to this question.

We express utmost concern at the refusal of the Australian National Line to give more than a vague reply to Roger Degen, M.L.A., about its plans for buildings on the site of the new terminal.

It would appear that this Federal instrumentality has treated Mr. Degen's inquiry with contempt.

What has the Federal Government to say about this? And the State Government? And the State Planning Authority?

And, more pertinently still, Leichhardt Council, which surely must have some responsibility and some power in regard to the type of construction to be erected within its boundaries?

Ald. Origlass says there are obvious signs of a repetition of the conditions associated with the construction of the huge container terminal building at White Bay.

There certainly are. And the people of Balmain are already recoiling in horror at the thought.

We want the following questions answered, NOW:

- Will there be another mammoth building on the waterfront at Mort Bay, along the lines of White Bay?

- What effect will the proposed buildings have on living amenity? On property owners and residents, as to view and home values?

- What plans for road traffic to and from the terminal?

The authorities must have already decided on these plans. Why the silence, unless to express contempt for Balmain.

# RAKE THE MUD IN THE BATHS!

A system of raking the mud could result in removing the menace of siltation from the Dawn Fraser Pool, according to a swimming club official.

The official is Mr. Thomas Atterton, of North Ryde, who is secretary of the Sunshine Club, which conducts the "Shiverers" activities at the pool every Sunday in winter.

He informed "The Link" that two years ago he and Mr. W. McMahon, as representatives of the club, interviewed the Mayor (Mrs. Cashman) and Council officers on the state of the baths.

"We were given very short shrift," he said.

"I stressed at this meeting that the baths manager could sift the mud on the bottom of the pool by a method well known to the Council engineers—a system of raking which enabled the muddy silt to be carried away by the tides.

"It would take two or three tides to do this, but it would leave a hard, clean bottom to the pool.

"This is not practicable while the baths are in use, and would have to be done in winter time. The cleaning and preservation of the sull-

age boards surrounding the pool, and other tasks, could be done then also."

Mr. Atterton commented on Ald. Wyner's remarks that there was a feeling in the Council that the baths should be allowed to go.

"This, I think, is more of a decision than a feeling," he said. "It was told to us at our meeting two years ago that the expenses were not covered by the turnstile returns.

"However, the Dawn Fraser Pool is a facility for the public, as are the parks and children's playgrounds, which no one decries for not showing a profit."

Mr. Atterton appealed to Leichhardt Council to preserve the baths, which he believed were the oldest in Australia.

He said that medical reports would prove that sea water was far more beneficial than chlorinated fresh-water pools, which he thought were not as free from disease as was claimed.

The water in sea-water pools, he said, was

perpetually being replaced with new salt water at every tide.

Mr. Atterton said the Domain Shiverers now swam at Balmain all the year, holding a weekly race meeting, while a women's club was formed here only a few weeks ago.

## SWIMMING

Balmain's Amateur Swimming and Life Saving Club will hold a reunion of past and present members next Sunday, March 9, at Dawn Fraser Pool.

They will meet at the pool at 11 a.m. for races, and afterwards proceed to Balmain Leagues Club, Nelson Street, Rozelle, for refreshments.

The Balmain Belles held a 33 yd. open mixed race at Dawn Fraser Pool on Feb. 25.

Result: M. Paterson 1; F. Simms and J. Johnson, dead heat 2.

To reduce the risk of windscreen breakage, travel slowly on newly surfaced roads and those with a loose surface.

## R.S.L. CORNER

Winners of the knock-out euchre tournament last Friday night were Ray Owens and Mrs. Johnson, from J. Fikler and Ray Wise.

This week the numbers will not be restricted, but members are reminded to make sure their names are down.

On Friday week, March 14, there will be no knockout euchre tournament, but a film night, with the main feature taking 80 minutes, and shorts for 40 minutes.

As this will be the club's first film night, it would like as many members as possible to attend.

Paid a visit to member Archie Jewess in Lady Davidson Hospital, Turramurra. His foot operation has been a success but his hernia operation not completely successful. He is still on his weight-reduction diet, so it was tea and Sao biscuits for him on Sunday morning.

A reminder to parents who have children desirous of joining one of the club's eight soccer teams that the training ground is King George's Park.

The two Monte Carlos on Sunday night were won by Merle Quinn and John Wilby, and Ted and Alma Hackenberg. From next week

the event will be easier to win, as the jackpot prize will be awarded if you draw either an ace or a king.

# Fears Over New Terminal

Balmain Parliamentary and municipal representatives last week expressed their concern at signs from the new Mort Bay wharfage construction that there would be a repetition of the "scandal" of the White Bay container terminal construction.

Mr. Roger Degen, M.L.A. for this constituency, expressed strong dissatisfaction with the Australian National Line's attitude to his request for details of all building to be erected on the new Mort Bay container terminal site.

He said that the Chairman of the Line, Mr. J. P. Williams, had replied with a vague statement that plans for a terminal office were being prepared and would be supplied when available.

"Surely the terminal office will not be the only building on the site?" Mr. Degen said.

"Balmain residents have unhappy memories of the overseas container terminal project, where it was discovered that the area was to be destroyed by the construction of storage sheds.

"The Government must not allow this to happen at Mort Bay."

Mr. Degen said he had written to the Premier, Mr. Askin, seeking an assurance from the Government on this matter.

## "Scandal"

Ald. N. Origlass, one of the three Balmain aldermen, said he believed it was essential to have the prospects of the A.N.L. known in advance.

"We were assured in writing that there would be no high buildings erected at White Bay," he said. "But when it came to the point they proposed to build all the way along that site. The building is only partly erected now.

"Balmain ward aldermen appreciate the support from our local

Member, even if it be somewhat belated.

"There are obvious signs of a repetition of the scandal of the construction of the huge building at White Bay."

Ald. Origlass said that the recent announcement of A.N.L.'s association with the A.C.T. (White Bay) consortium raised the new threat of heavy cross-peninsula traffic affecting Balmain people.

That indicated the need for the alternative of water transport between the two berths, which he had urged as being the solution to the problem of heavy container traffic over Balmain's inadequate road system.

Such water transport—in the form of lighters joined in "trains"—was successfully operated overseas, he said.

## CODOCKS EVENTS

The club's first Rugby League trial matches will be at Guildford, against Guildford, next Sunday, March 9.

Any player residing in the Balmain district is eligible to try out with the club.

Following advice from the Junior League officials, the club will now

be fielding a B grade team.

Ages of the respective teams are: B grade, under 23 years; C, under 19; D, under 17; E, under 15; F, under 14; G, under 13.

Two buses will leave Balmain Town Hall at 9.15 a.m. for the trip to Guildford.

The second trial will be against St. Marys at St. Marys on March 16.

The golf club had another enjoyable day last Sunday week. The boys, who included Joe Hayes, George Wise, Tommy Higham, Fred Ballard, Jim Nash, etc., took their families with them, and what with barbecues, steaks, sausages, etc., plus some refreshments, they really enjoy themselves.

There are a few vacancies in the golf club membership. Contact Secretary Joe Hayes.

The carpet bowlers had mixed luck last Wednesday night, winning one and losing the other.

In the match played at home, Codocks No. 1 defeated Balmain Tennis Club No. 2 by 21 points to 11. A very good performance by Bertie Gahan gave The Docks the edge.

Codocks No. 2 lost to Randwick Botany Harriers 17-12. The fine hospitality by the Harriers' ladies' committee was particularly appreciated.

# Stop Child Accidents

About 20 per cent of children under the age of 15 years require hospital treatment for accidental injury each year, according to a survey last year by the N.S.W. Department of Public Health.

Dr. S. J. Krister, Director of the Department's Division of Health Education, said that nearly twice that number of boys suffered accidents.

A third of the accidents were due to falls and collisions.

One in six of the violent accidents caused bone fractures.

A high percentage of the children under six years were poisoned, many of these cases being the result of carelessness by parents leaving drugs within reach of children.

Dr. Krister said that most of the accidents could have been prevented by the exercise of a little care and foresight. Parents needed to be more aware of the dangers to their children and the necessity to educate them in accident avoidance.

With babies and very young children, the onus was on the parent to keep drugs and poisons securely locked away out of reach.

He laid down the following safety rules:

Keep handles of cooking utensils away from

the edge of the stove, but be careful they are not turned in over the heat.

Make sure everything is kept in the middle of the table, and don't have the end of the tablecloth hanging where a toddler can pull on it.

Keep knives and other sharp cutting instruments out of reach of small children.

Take care with electrical appliances, such as irons, toasters and vacuum cleaners.

Don't polish floors sufficiently to make them slippery.

Make sure all medicine bottles and containers are clearly labelled and kept out of reach of children. All medicines and pills not regularly in use, or left over from a previous prescription, should be thrown away.

Advise children about the danger of accidents when riding bikes and scooters, and teach them traffic and road rules.

Warn children about the hazards of climbing and playing in dangerous places, and discourage toddlers and non-swimmers from playing near water

# Boys' Club

Rugby League training is held at Birchgrove Oval Monday, Wednesday and Friday nights. New players should attend next Monday at 7 p.m. The club needs players for B, C, D, E, F and G grades and under 12 and under 11 teams. E grade needs a coach, and managers and selectors also are required.

Any person able to assist should attend training or ring Sergt. Stone (82-2234).

The club also needs soccer coaches, managers and selectors (ring Senior Constable Nicol), and players for the under 16 baseball team.

A specialised course in electronics for boys in 2nd year at school and above, up to 21

years of age, will be conducted soon by highly qualified instructors, Messrs. Gordon and Slip. No charge is made for attendance. Boys wishing to take part should attend the club Wednesdays at 7.30 p.m.

In a visit of club boxers to Lithgow, Greg Carr won his bout, but opponents did not turn up for Gary Best and Terry McCabe. Instructors Fleidner and Ellston accompanied them.

The under 14 cricket team scored 53 in the first innings and was 1 for 63 at stumps in the second innings against Balmain Rovers last Saturday. Rovers declared at 3 for 93 in the first innings. The match will end next Saturday.

# Hot Car Radiator

The recent spate of high temperatures has brought back the old problem of engine overheating for many motorists.

This prompts the N.R.M.A. to warn drivers that they can be badly scalded if they lift the cap off a hot pressurised radiator without taking proper precautions.

Generally, pressure caps should be removed slowly. They have two release positions — the first allows pressure to

escape down the overflow, and the second allows the cap to come off.

To remove the cap of a hot motor, wait a few minutes at the first release position to allow the pressure to escape and the boiling to subside before turning to the final release position.

If in doubt about the efficiency of the cap, let the motor cool down before releasing it.

Allow the engine to cool before topping it up with cold water.

FRANCES

Ask for Frances, who is an expert and specialises in permanent waving. She will advise you about styling and tinting.

**SCHOOL LUNCH**

As so many children take a cut lunch to school each day, research has been conducted to guide mothers in preparing this meal.

The Health Publicity Council of Australia says that lunches can be both nutritious and appetising, and the unquestionable superiority of the "OSLO" lunch when compared with the "meat pie and cake" lunch is proved by a comparison.

This reveals the remarkable difference in nutritive qualities.

The Council says there can be no doubt that the "OSLO" type of meat should be the basis of all lunches, since it contains all the ingredients for the promotion of health.

It consists of two wholemeal rolls, with butter and cheese, and or any variation of fillings, which may include lettuce, grated carrot, chopped celery or apple, hard-boiled eggs, chopped nuts, sultanas or raisins.

One piece of washed fruit should be added—apples, oranges or bananas being the most used.

Where possible, milk should be taken.

By serving a school lunch of this nature, it is easy to cover one-third of the child's total daily requirements of calories, proteins, minerals and vitamins.

**Young Boys**

wanted, 17-20 years, for clicking and stapling work. leather trade.
